HISTORY OF SELECT 220

75 YEARS OF SELECT SPORT

2022 is a year of celebration. A year to celebrate 75 years of innovation based on our founder Eigil Nielsen's dedication to creating the perfect ball. It all started in 1947 when Eigil created his first football that laid the path for him to invent the modern football as we know it today. His innovative ways have helped SELECT grow through the years and cemented our status as both Player's Choice and League's Choice. Today, our handballs and footballs are official match balls in numerous leagues, clubs and federations worldwide.

Currently our clothing range plays an increasingly greater role in our business focus, as SELECT is now a total supplier of balls, clothing, training equipment and sports supports to professional and amateur football and handball clubs.

We know that our actions matter and believe that innovation includes sustainable efforts. We want to use more recycled materials and we are proud to increase the number of products with this focus, such as the Planet football and the futsal Planet ball made from recycled plastic bottles and our Baselayer and Oxford clothes made with recycled polyester.

75 years of innovation have passed and SELECT is still striving to deliver high quality products to players around the world - a mission we are excited to continue many years to come.

Peter Knap, CEO

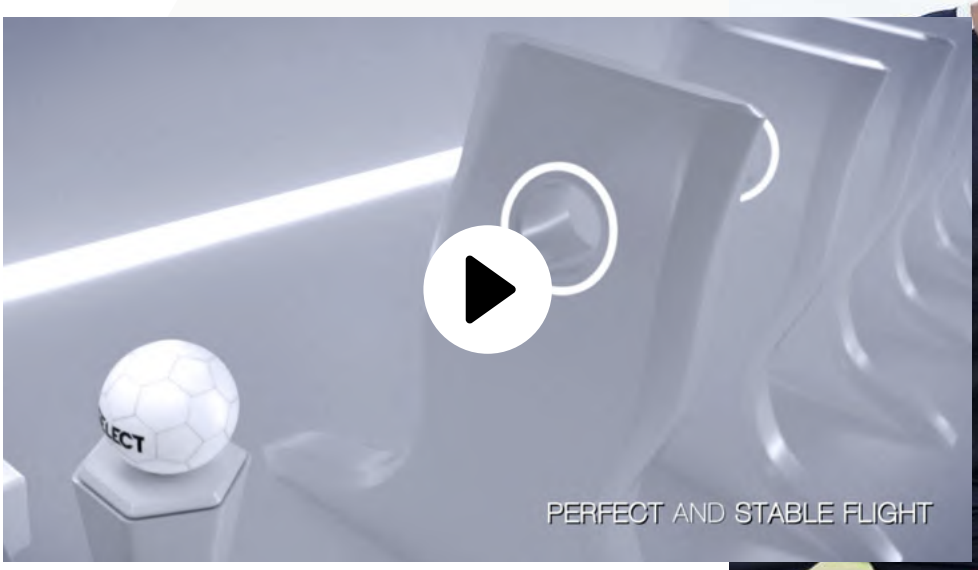

NEW

FOOTBALLS

Introducing a new design for our professional and club footballs. The design uses dynamic lines and colour splashes, contrasted by graphic elements, that stand out from the classic white base colour - a SELECT staple.

The new design compliments the straight flight of the ball and ensures optimal visibility for players, goalkeepers and spectators.

SELECT
SELECT
SELECT

NEW

HANDBALLS

Introducing a new design for our high-quality handballs with colourful streaks depicting the fast and forceful game.

As the largest producer of handballs in the world and official match ball supplier to associations, leagues and clubs worldwide, SELECT is the preferred handball by many.

SELECT
SELECT
SELECT

FUTSAL RANGE

NEW

The new and extensive SELECT Futsal range meets every need from adult to children and amateurs to professionals. An updated colourful design ensures better visibility and faster player reactions fit for the fast-paced game.

The popular Futsal Super is now thermo bonded – heat and pressure activated glue bonding the 32 panels – and with a new 3D diamond structured surface for optimal ball contact and control.

Futsal Planet, a new match and training ball, is made from recycled plastic bottles and natural latex reducing the environmental impact of the ball while still offering long durability and optimal control.

Futsal Light DB is reduced in weight and the perfect transition from youth to senior level.

SELECT

NEW

MILANO BAGS

High quality sports bags in various sizes for training, match and travel. The new MILANO range has cool design updates and practical features to suit the needs of players on the go.

SELECT

NEW

SELECT TEAMGEAR

TEAMGEAR TRAINING

SELECT Teamgear now includes individual training packages for juniors and seniors to use in the club or park or at home in the garden. The training gear comes in a handy storage bag to carry over your shoulder.

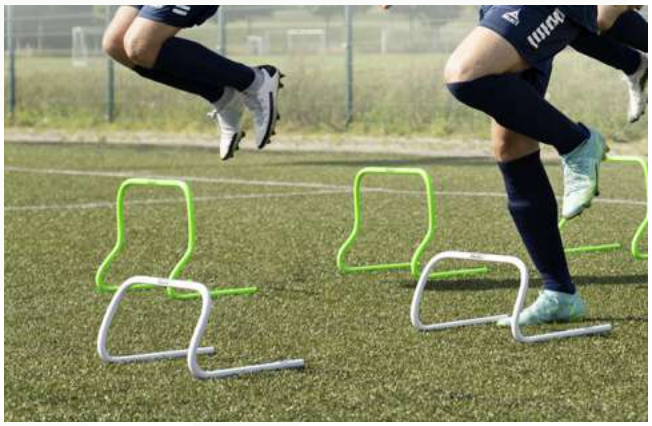

The new acceleration trainer is ideal for goalkeeper training but also for handball and football players who want to improve their speed in all directions.

A goal net has finally been added to the Teamgear range – the perfect tool to train your shooting skills and increase efficiency and focus.

The new training gear also include coordination rings for running and coordination exercises, an agility set for goalkeeper jumping exercises and an agility ladder for outdoors coordination training.

SELECT

SUSTAINABLE EFFORTS

We know that our actions matter. We are continuously taking sustainable steps in our production and packaging.

We want to reduce the use of plastic in our packaging and are focusing on introducing recycled materials in our products. By using recycled materials, the environmental impact of our products is reduced.

Here are the newest additions in our sustainable efforts.

Baselayer underwear for sports made with Repreve® Polyester - a yarn made from **recycled plastic bottles**

RECYCLED MATERIALS

The new Futsal Planet and Planet football, a match and training ball, made from **recycled plastic bottles** and **natural latex**

Oxford leisurewear with
40% recycled polyester

Recyclable water bottles
in a **bio-based material**
processed from sugar canes

Eco ice pack, a CO_2 friendly ice pack without water. By omitting water in the ice packs, we avoid transporting 45 tonnes of water and can reduce the **CO_2 emissions by 44% annually** compared to our regular ice packs containing water

THE ORIGINAL 32 PANEL BALL CONSTRUCTION

Every single football, handball and futsal ball from SELECT is based on the revolution from 1962, where our founder, Eigil Nielsen, invented a ball made of 32 panels. The overriding desire was to create the most reliable ball with the most predictable, straight flight and a bounce neither too high nor too low.

It was impossible to make a perfectly round ball with just 18 panels, which was the standard construction of a ball in the past. With the 32 panels – 20 hexagons and 12 pentagons - SELECT succeeded in creating the roundest ball ever seen. Later, a group of American scientists won the Nobel Prize for discovering that the molecules of carbon with a special irradiation organize themselves as a completely round ball – something Eigil Nielsen had already discovered and realized in his football with 32 panels, why the reinvention was named “the football molecule”.

A ball with optimum roundness is essential to obtain reliable aerodynamic – a straight flight and a controlled bounce. Our finest football, BRILLANT SUPER TB, has been thoroughly tested in a wind tunnel at the Institute of Health & Sports Science at the University in Tsukuba, Japan. The results show that BRILLANT SUPER has a better aerodynamic than other top balls in the market. The ball’s classic construction with 32 panels means that the ball meets resistance at a later point in its trajectory through the air, thus retaining a steady, high speed over a longer period of time. This provides a stable and more predictable flight – highly valued by all football players.

The majority of our balls are still based on Eigil Nielsen’s original invention of the 32 panel ball construction, as we never compromise on quality, playability or durability.

FOOTBALLS

OFFICIAL LEAGUE MATCH BALLS

SELECT is the official match ball supplier to the Swedish Allsvenskan and Superettan, the Danish national team, the Portuguese league, the Icelandig league, the Bosnian and Herzegovinian league, the Romanian league, the Danish men's and women's league and first division, the Norwegian men's and women's league and the Finnish league.

Our BRILLANT SUPER ball is also supplied to a vast number of teams and federations around the world. Furthermore, our German subsidiary DERBYSTAR is the official match ball supplier for the Dutch league and the German Bundesliga. The Bundesliga is ranked as one of the world's best football leagues by FIFA

ALLSVENSKAN & SUPERETTAN

SELECT is the official match ball supplier to Allsvenskan and Superettan, and the partnership has evolved through the years to now include official SELECT clothing with match and training wear in several Allsvenskan football clubs.

Allsvenskan, Swedish Football League, is the highest league in Sweden founded in 1924. 16 teams are in the league playing from spring to autumn. Superettan is the second highest league, which has been played since 2000, and the two best teams from the Superettan matches advance to Allsvenskan.

Every year the champions of Allsvenskan lift the Lennart Johansson Trophy named after late Lennart Johansson who among other things was President of UEFA between 1990-2007.

3 FOAM

4 LATEX BLADDER COVERED WITH UNDERLINING

5 DOUBLE LOCK VALVE

ULTRA ZONIC BONDED
- GROUNDBREAKING TECHNOLOGY

Introducing the groundbreaking Brillant Super UZ - the world's first football made with ultrasonic technology. We have created a ball with unsurpassed control and amazing aerodynamics as the new construction method ensures the perfect indentation between the panel and an even more stable flight benefiting both players and goal-keepers.

Brillant Super UZ is made using a brand new and Danish patented construction method in which ultrasonic sound waves bond the 32 panels of the ball together. The panels are held together using pressure and ultrasonic sound waves activate the microfiber molecules by creating friction. This bonds the panels together.

The ball's surface is a new and improved PU microfiber material from Japan, which is manufactured using a water-based method. The PU surface has a new 3Ddiamond structure that ensures optimized friction between ball and boot as well as the best grip for goal-keepers. The new construction also holds a newly developed foam lining with two layers, which gives the ball a soft exterior. Inside, the Zero-Wing bladder is covered with a textile fabric to ensure the roundness of the ball. The compact interior of the ball with to the two-layer foam lining add a feeling of lightness and speed.

The Zero-Wing latex bladder has a built-in balance point located opposite the valve hole, which ensures that the ball is in balance, retains air and has the right bounce. In short, the Brilliant Super UZ is comprised of the best quality materials available. The ball has undergone thorough testing by more than 300 professional players in 2020 with very positive feedback.

Brilliant Super UZ is suitable for matches at the absolute highest level, and the combination of the construction and the materials ensure the best playing abilities and the best durability.

THERMO BONDED
- QUALITY INSIDE AND OUT

BRILLANT SUPER TB has the characteristics that distinguish a classic SELECT ball and is suitable for matches at the absolute highest level. The materials are carefully selected and have exactly the qualities that give the best playability and durability.

The optimum roundness is ensured with the well known 32 panels spread over 12 pentagons and 20 hexagons. The outer material of the ball consists of synthetic leather with a light surface structure that minimizes air resistance.

Under the synthetic leather hides the SELECT natural latex Zero-Wing bladder with built-in balance point in the opposite end of the valve hole. On the outside of the bladder is a lining made of a 4 mm. thick and exclusive foam material. The outer material and the underlying foam give the ball a softer, lighter and a more comfortable touch. Despite the fact that the ball feels lighter, the weight is the same as a traditional football.

TB stands for Thermo Bonding, a method that activates the glue with heat and pressure to bond the 32 panels. There are no stitches, and the TB ball takes up less water keeping the original weight better when playing on a wet surface.

The ball has, among other places, been tested at the Institute for Health & Sports Science at Tsukuba University in Japan. The test results showed that the ball – just like other balls from SELECT – faces less wind resistance in the first part of the flight, moves easier through the air and meets wind resistance later than other balls on the market.

FIFA® QUALITY PRO

FIFA® BASIC

The FIFA Quality Programme for Footballs was introduced in 1996 to harmonise and improve the quality of footballs. Focusing on the ball, the very heart of the game, the prestigious FIFA quality labels are only given to balls that have passed rigorous testing.

FIFA Quality Pro is reserved for only the best standard of match balls available. FIFA Basic is the newest standard focusing on cost efficiency, durability and safeguarding player safety.

1	2	3	4	5	6
PU SURFACE	HAND-STITCHED	FOAM	LINING	ZERO-WING BLADDER	DOUBLE LOCK VALVE

HAND STITCHED
- HIDDEN BEHIND THE ELEGANT EXTERIOR

Common to all our balls is that the quality is high and the durability long. An optimally round football consists of 32 panels made up of 12 pentagons and 20 hexagons. The 32 panels are sewn together using 630 double stitches and 60 corner stitches and are closed off – especially for SELECT – with a double knot. The ball lasts longer this way.

Hidden behind the elegant exterior of the balls in our Pro and Club Series is a Zero-Wing bladder made of high-performance natural latex. The concept has been developed to ensure that not only the ball but also the bladder is as round as possible. We solely use latex bladders in our footballs with build-in balance point at the opposite side of the valve hole. This, together with the Zero-Wing concept, ensures a perfectly balanced ball with a very lively bounce.

To stabilise the ball and ensure that it remains round, the 32 panels are lined with several layers of textile material. The lining helps to adjust the softness and improves the contact between the ball and the foot.

The outer layer of the ball is made of synthetic leather in polyurethane (PU). The surface of this material can be either ”shiny”, ”grain” or “pattern” and consists of lots of PU fibres. Combined, this gives a strong surface with consistent softness.

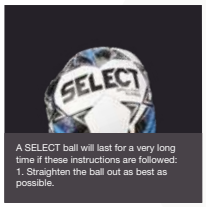

High quality is essential for SELECT. For this reason, each ball undergoes a stringent test at our production facilities in Pakistan. Here, they are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance. Our standards for quality are the highest in the industry and the balls are of course tested and approved according to FIFA standards.

FIFA® QUALITY PRO

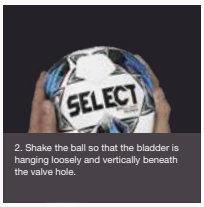

FIFA® BASIC

The FIFA Quality Programme for Footballs was introduced in 1996 to harmonise and improve the quality of footballs. Focusing on the ball, the very heart of the game, the prestigious FIFA quality labels are only given to balls that have passed rigorous testing.

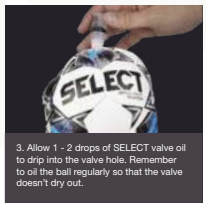

FIFA Quality Pro is reserved for only the best standard of match balls available. FIFA Basic is the newest standard focusing on cost efficiency, durability and safeguarding player safety.

A SELECT ball will last for a very long time if these instructions are followed: 1. Straighten the ball out as best as possible.

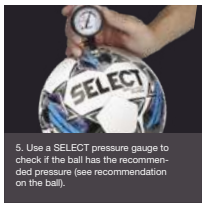

2. Shake the ball so that the bladder is hanging loosely and vertically beneath the valve hole.

3. Allow 1 - 2 drops of SELECT valve oil to drip into the valve hole. Remember to oil the ball regularly so that the valve doesn't dry out.

4. Inflate the ball with a SELECT pump. It is important that the bladder is in the vertical position as shown here. Always remember to use the nipple.

5. Use a SELECT pressure gauge to check if the ball has the recommended pressure (see recommendation on the ball).

6. Clean the ball with a brush and tepid water. Dry the ball with a cloth. Place the ball in a ventilated room with a temperature of 15 - 20°C.

1	2	3	4	5	6	7
PU SURFACE	STITCHED	DUAL BONDING	FOAM	LINING	SR BLADDER	DOUBLE LOCK VALVE

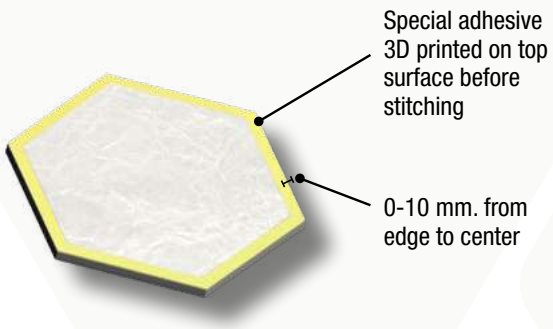

DUAL BONDED

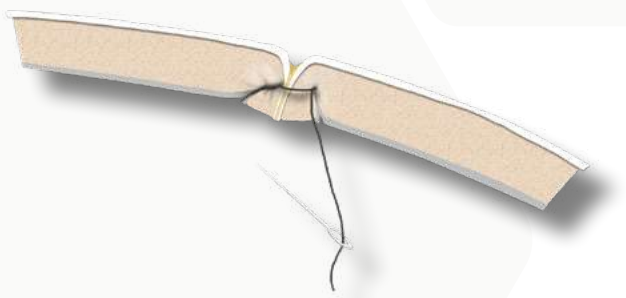

- IMPROVED STABILITY AND A SOFTER TOUCH

The special feature of the dual bonded production method is that the ball's 32 panels are both stitched together and then sealed in the edges.

A DB ball is a construction that consists of a PU-material laminated with foam. Next, two layers of textile underlining are laminated to the foam layer to add stability. The panels are then printed with 3 mm. edge glue and stitched by machine. The glue is activated in the heat mold to hide the stitches and the seam sealing is done by hand. By using glue in the sealing of the seams, the water uptake is reduced significantly.

The bladder inside is an SR bladder with excellent air retention. The result is a football with both stability, control and a softer touch compared to other footballs. Brillant Training DB, Club DB, Atlanta DB, Talento DB, Future Light DB balls are produced using the dual bonding method.

NO GRASS? NO PROBLEM

Designed to outperform and outlast the competition on artificial turf surfaces

Why choose SELECT TURF specific footballs?
Across the country, more and more organizations are utilizing synthetic turf surfaces that claim to deliver a “grass-like” experience. There is no denying the benefits that these types of surfaces deliver to youth and adult football players.
However, football players can testify to some of the harsh characteristics of artificial surfaces:

- Synthetic surfaces can cause a standard ball to skip and roll more quickly than it would on a grass surface.
- The rubber filling and synthetic fibers can cause a standard ball to peel and rip from regular use.

What makes SELECT TURF series different?
SELECT’s commitment to innovation and quality has led to the development of the FPUG material used on SELECT turf series balls. FPUG is an extremely durable yet soft casing that improves the life of your football while ensuring natural playing characteristics.

All SELECT TURF footballs are 100% handstitched. By hand stitching, SELECT has ensured that these balls will maintain their shape and offer exceptional durability.

FUTSAL EKSTRAKLASA

Futsal Super is the official match ball in Poland's Futsal Ekstraklasa season 2021/2022.

The first agreement between SELECT and Futsal Ekstraklasa was signed in 2011. Since then, SELECT has been the official match ball supplier for all following seasons.

SELECT Futsal Super has become a household name in Poland's futsal circles. A feat to be proud of.

1	2	3	4	5
PU SURFACE	THERMO BONDED	FOAM	BUTYL BLADDER WITH POLYESTER FIBERS INSIDE. COVERED WITH UNDERLINING	BUTYL VALVE

THERMO BONDED
- LOW BOUNCE FOR OPTIMUM CONTROL

The popular SELECT FUTSAL SUPER is now thermo bonded. TB is a method that activates glue with heat and pressure to bond the 32 panels of the ball. There are no stitches, giving the ball a fantastic, soft touch.

Hidden behind the elegant exterior of the futsal ball hides a specially developed butyl bladder with polyester fibers inside. That ensures a very reliable low bounce compared to a normal football making it much easier to control. All our balls have a butyl valve inside covered by foam to avoid the bladder from puncturing when inflating the ball.

To stabilise the ball and ensure it remains round, the 32 panels are lined with several layers of textile material and foam. The lining and foam helps to adjust the softness and improves the contact between the ball and the foot.

The outer layer of the ball is made of synthetic leather in polyurethane (PU). The surface of the FUTSAL SUPER TB is in a new 3D diamond structure ensuring optimal friction between ball and boot.

High quality is essential for SELECT. Each ball undergoes a stringent test at our production facilities in Pakistan. The balls are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance. Our standards for quality are the highest in the industry and exceed FIFA's regulations for the best match balls. The balls are of course tested and approved according to FIFA standards.

PU SURFACE	STITCHED	DUAL BONDING	FOAM	LINING	SR BLADDER	DOUBLE LOCK VALVE

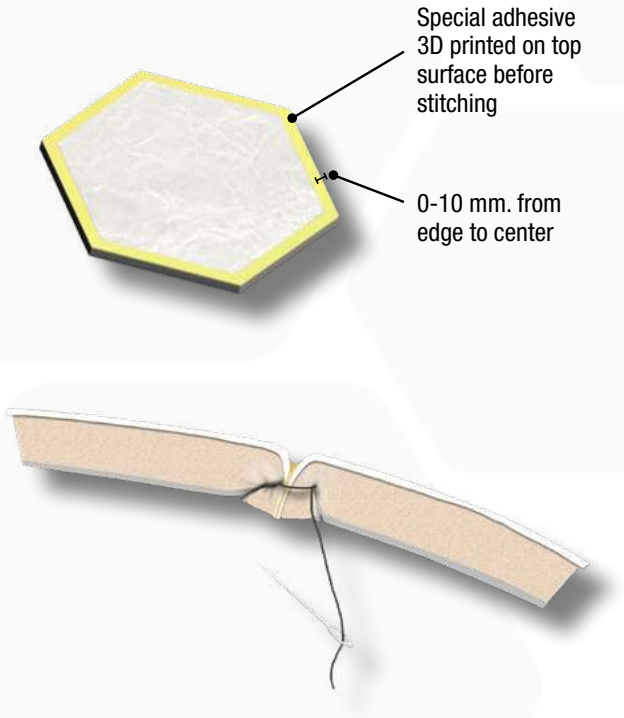

DUAL BONDED
- FOR A SOFTER TOUCH AND OPTIMUM ROUNDNESS

Futsal is a technically demanding sport that requires a special ball.

We are introducing the futsal DB ball produced using the dual bonding method. The 32 panels of the ball are both stitched and sealed in the edges – the dual bonding method.

The panels of the ball are printed with a 3 mm edge glue and stitched by machine. The glue is activated in a heat mold to hide and seal the stitches. By using glue in the sealing of the seams, the water uptake is reduced significally and the ball is even more round, as you cannot feel the gathering of the panels.

The ball is made from a high-quality PU material and a special foam padding that ensures an extra soft touch and faster passes. Inside the ball is a specially developed butyl bladder filled with polyester fibers, which ensures a reduced bounce, perfect roundness, and easy control.

HANDBALLS

SPONSORSHIPS IN THE WORLD OF HANDBALL

SELECT is the world's largest producer of handballs and official match ball supplier to a wide range of associations, leagues and clubs around the world. All tournaments by EHF have SELECT as official match ball – including the EHF Champions League, EHF European League and the European Championships. Our ULTIMATE is the official league ball in France, Poland, Russia, Iceland, Norway, Slovenia, Lithuania, Estonia and Latvia and is used by many of the teams in the strong leagues of Denmark and Hungary. SELECT is also supplier to the national teams of Austria, Chile, Iceland, Lithuania, Portugal and Turkey and has been the Danish national team's preferred ball brand for over 50 years.

PGNiG SUPERLIGA WOMEN & MEN

SELECT Sport is the official match ball supplier to both premier Men's and Women's handball leagues, PGNiG Superliga Poland.

This sponsorship agreement is one of the longest, continuous contracts for SELECT in Poland. It all started in 2016, the same year PGNiG Superliga was founded.

SELECT Ultimate v22 is the official match ball for season 2021/2022.

LFH & LNH FRANCE

SELECT Sport is the official ball supplier to the French women's and men's handball elite leagues with Ultimate as the official match ball.

SELECT has been the official match ball supplier to the LNH (men's league) since 2012 and the LFH (women's league) since 2014.

Both French leagues are among the strongest leagues in the world, and both have extended their partnership with SELECT for the next coming seasons.

1	2	3	4	5	6
PU SURFACE	HAND STITCHED	FOAM	LINING	ZERO-WING BLADDER	DOUBLE LOCK VALVE

HAND STITCHED
- 360 DEGREES OF PERFECTION

Common to all our balls is that the quality is high and the durability long. An optimally round handball consists of 32 panels made up of 12 pentagons and 20 hexagons. The 32 panels are sewn together using 540 double stitches and 60 corner stitches and are closed off – especially for SELECT – with a double knot. The ball lasts longer this way.

Hidden behind the colourful exterior of the balls in our Pro and Club Series is a Zero-Wing bladder made of high performance natural latex. The concept has been developed to ensure that not only the ball but also the bladder is as round as possible. We solely use latex bladders in our handballs with built-in balance point at the opposite side of the valve hole. This, together with the Zero-Wing concept, ensures a perfectly balanced ball with a very lively bounce.

To stabilise the ball and to ensure it remains round, the 32 panels are lined with several layers of textile material. The lining helps to adjust the softness as well as the weight of the ball.

The most important factor regarding the softness of the ball is actually a layer of neoprene foam, which is placed between the lining and the synthetic leather. The foam maintains its softness and elasticity match after match.

The synthetic leather used in our handballs consists of an outer layer of ”grippy” PU with a backside of non-woven polyester fibre. In addition to this, the special fibre threads are inlaid in a crisscross fashion to ensure the strength and stability of the material. This ensures a ball with a perfect grip, optimal balance and extreme durability.

High quality is essential for SELECT. For this reason, each ball undergoes a stringent test at our production facilities in Pakistan. Here they are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance.

EHF
EUROPEAN HANDBALL FEDERATION

1	2	3	4	5	6	7
PU SURFACE	HAND STITCHED	DUAL BONDING	FOAM	LINING	SR BLADDER	DOUBLE LOCK VALVE

DUAL BONDED

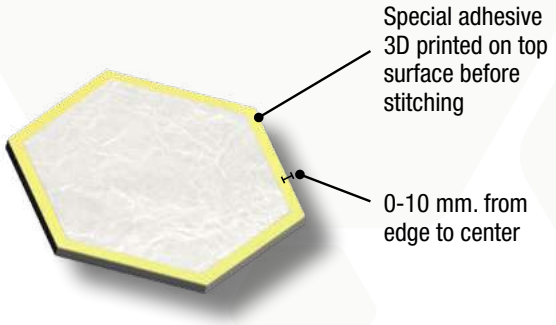

- DUAL BONDED FOR A SOFTER TOUCH AND IMPROVED ROUNDNESS

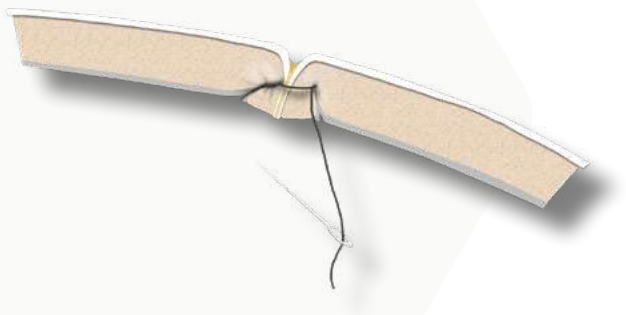

The special feature of the dual bonded method is that the ball's 32 panels are both stitched together and then glued in the edges.

The ball is constructed with an outer PU material laminated with 2 mm. foam and then an extra inserted 3 mm. layer of foam between the surface and the inner bladder. The panels are printed with 3 mm. edge glue and stitched by hand or machine.

The glue in the edges is activated in a heat mold to hide and seal the stitching, which means that the gathering of the 32 panels cannot be felt, and the ball therefore becomes even more round.

The DB method is used in our handball, FORCE DB, Light Grippy DB and Torneo DB. The bladder in this ball is a reinforced SR bladder with excellent airtightness for increased stability and controlled bounce. The overall combination of the materials and the production method gives the feeling of an incredibly soft handball with improved grip and roundness.

THE WORLD'S FIRST INTELLIGENT HANDBALL ULTIMATE iBall

INTELLIGENT SENSOR FOR AUTOMATED PERFORMANCE MEASUREMENT:

- Shot detection
- Shot speed
- Pass detection
- Pass speed

ULTIMATE iBall WITH A BUILT-IN CHIP THAT TRACKS AND DISTRIBUTES DATA IN REAL TIME

SELECT presents the world's first intelligent handball, Ultimate iBall, with a built-in chip that tracks and distributes data in real time.

The handball premiered at the VELUX EHF FINAL4 2018. This was the first major in European sports to use the new tracking technology capturing exact ball speed, shot detection, position of the shot and more bringing fans closer to the game. Currently, the iBall is used in both Champions League FINAL4 and EURO finals for men and women.

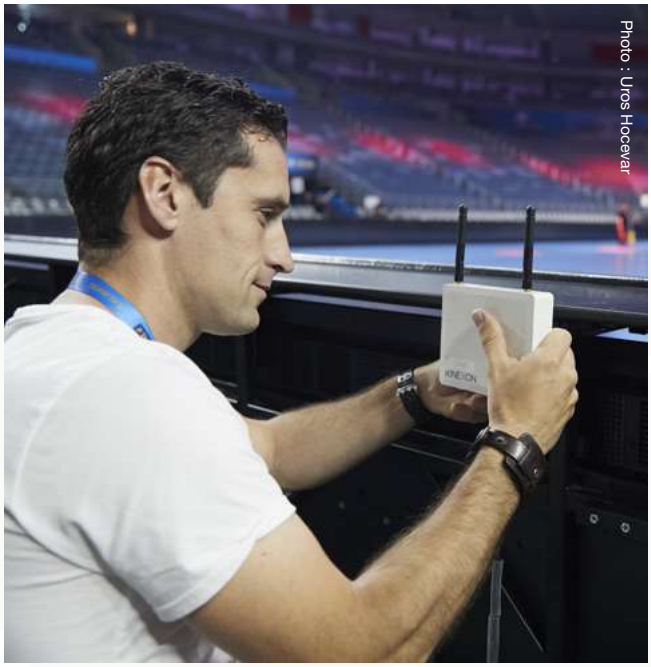

The SELECT Ultimate iBall and the associated new insights into the game will make the performance of players more tangible and result in a significant increase in fan engagement.

iBall TECHNOLOGY

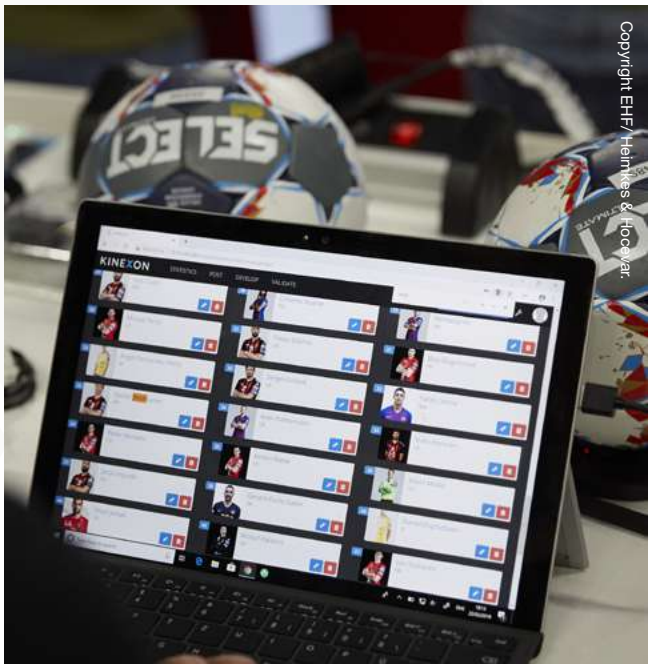

Spectators are able to observe the speed of the ball and the distance from goal for every shot in the game.

The shot distribution on court from one team or a specific player will be displayed for broadcasting and digital channels.

The position of every shot entering the goal will be displayed, illustrating scoring strategies. All information is detected automatically and in real-time with interfaces for both broadcast and digital channels.

OFFICIAL BALLS OF THE EHF CLUB COMPETITIONS

EHF EUROPEAN HANDBALL FEDERATION

EHF CHAMPIONS LEAGUE

EHF EUROPEAN LEAGUE

The stars of Europe's most prestigious handball competitions are playing with a quality match ball from SELECT.

SELECT's agreement with EHF includes us providing the official match ball for all the top EHF competitions, including the EUROS as well as the EHF Champions League Men, DELO EHF Champions League, and the EHF European League Men and Women.

Each season, we will present a new high-class design for both EHF Champions League competitions as well as a powerful and dynamic ball for both EHF European League competitions. Those designs will feature main elements of the EHF brand identity and resemble the core values of these competitions.

BASELAYER
- FUNCTIONAL UNDERWEAR FOR SPORTS WITH LIGHT COMPRESSION

We are introducing our new range in underwear for sports, Baselayer, with recycled polyester that offers warmth and light compression, mobility and comfort during training and sports.

All styles in the Baselayer range are made with Repreve® Polyester, a type of yarn made from recycled plastic bottles. The knitted fabric made from recycled polyester is breathable, quickdrying and added an antibacterial treatment to ensure odorless clothes.

REFEREE UNIFORMS

We are introducing our new clothing range with referee uniforms.

SELECT referee clothes focus on movement and comfort with practical details such as two chest pockets, a separate pocket for writing utensils and an inner trouser pocket for keys.

The referee uniforms have been developed and tested by referees, and are made in a quick-drying, breathable and durable material.

GOALKEEPER GLOVES

AN ANATOMICAL WORK OF ART

The top model 88 PRO GRIP consists of 3 mm Quartz Latex guaranteeing a perfect grip in all weather conditions. The latex is wrapped from palm to backhand maximising the catching area, and the negative glove cut provides constant latex contact between the hand and the ball. The soft airprene inside provides optimum comfort, increases the glove's flexibility and ensures minimal water absorption when playing in wet weather.

With the aid of an Anatomical Fit System the gloves have been designed with a slight bend according to the natural gripping position of the hand. Thus ensuring comfort, flexibility and movement of the glove aligned with the speed of the fingers.

A wide wrist strap allows a feeling of stability and safety in the wrist. The wrist is asymmetric and has an elastic insert to ensure easy entry into the glove.

Types of cuts

Negative Cut
A popular glove cut choice that reminds of Flat Cut. This style of cut also has gussets between the palm and the backhand. The gussets of the 88 glove are also made of latex giving constant latex contact between the glove and the ball. Negative Cut fits snugger and the fingers are held in place giving optimal ball contact when catching. This is the most common cut among professionals.

Flat Cut
Traditional glove cut with a flat palm construction providing a larger area of contact and making the glove more flexible. This style of glove typically fits looser than many other styles with more room for the fingers. Flat Cut is the most popular cut used for finger protection gloves.

Latex technology

Flexion Latex
Durable latex developed for youth gloves. Suitable for all weather conditions

New Basic Latex
Durable latex with a fantastic grip in all kinds of weather that makes it suitable for both training and matches

New Softy Latex
Soft and durable latex - suitable for all weather conditions. Highly recommended to pre-wet for best grip possible

Dura Grip Latex
Soft and strong latex for all weather conditions. The latex is longlived and suitable for both training and matches

Dura Pro Latex
Strong and durable latex especially suitable for use on artificial grass

Professional Grip Latex
High quality latex for professional matches. The glove has a perfect grip in all kinds of weather.

Super Soft Latex
Very soft and durable latex, used for professional match gloves. Provides a good grip and optimum contact with the ball. Well-suited for all weather conditions.

Ultra Pro Latex
Soft and hardwearing latex, especially developed for our best youth gloves, that combines durability with a fantastic grip. For all weather conditions.

Quatz Latex
Top performance latex. Ideal for professional gloves. Provides a good grip in both dry and wet weather compared to other kinds of latex.

Adhesion Plus Latex
Top performance latex with a good grip in all kinds of weather and great contact with the ball.

Glove technology

Anatomic Fit System
Ensures correct fit, as the glove is designed according to hands' natural grip position

Punch Zone
In non-sliding material for increased force and reduction of the rotary effect on the ball

Wide wrist
Extra wide wrist strap for improved support and comfort

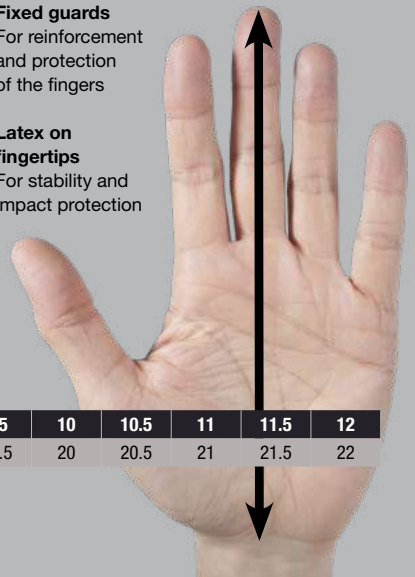

Comfort
Mesh on the inside of fingers to ensure good air circulation

Flexibility
Injection mold spiderweb design for a lightweight feeling and increased flexibility

Protection

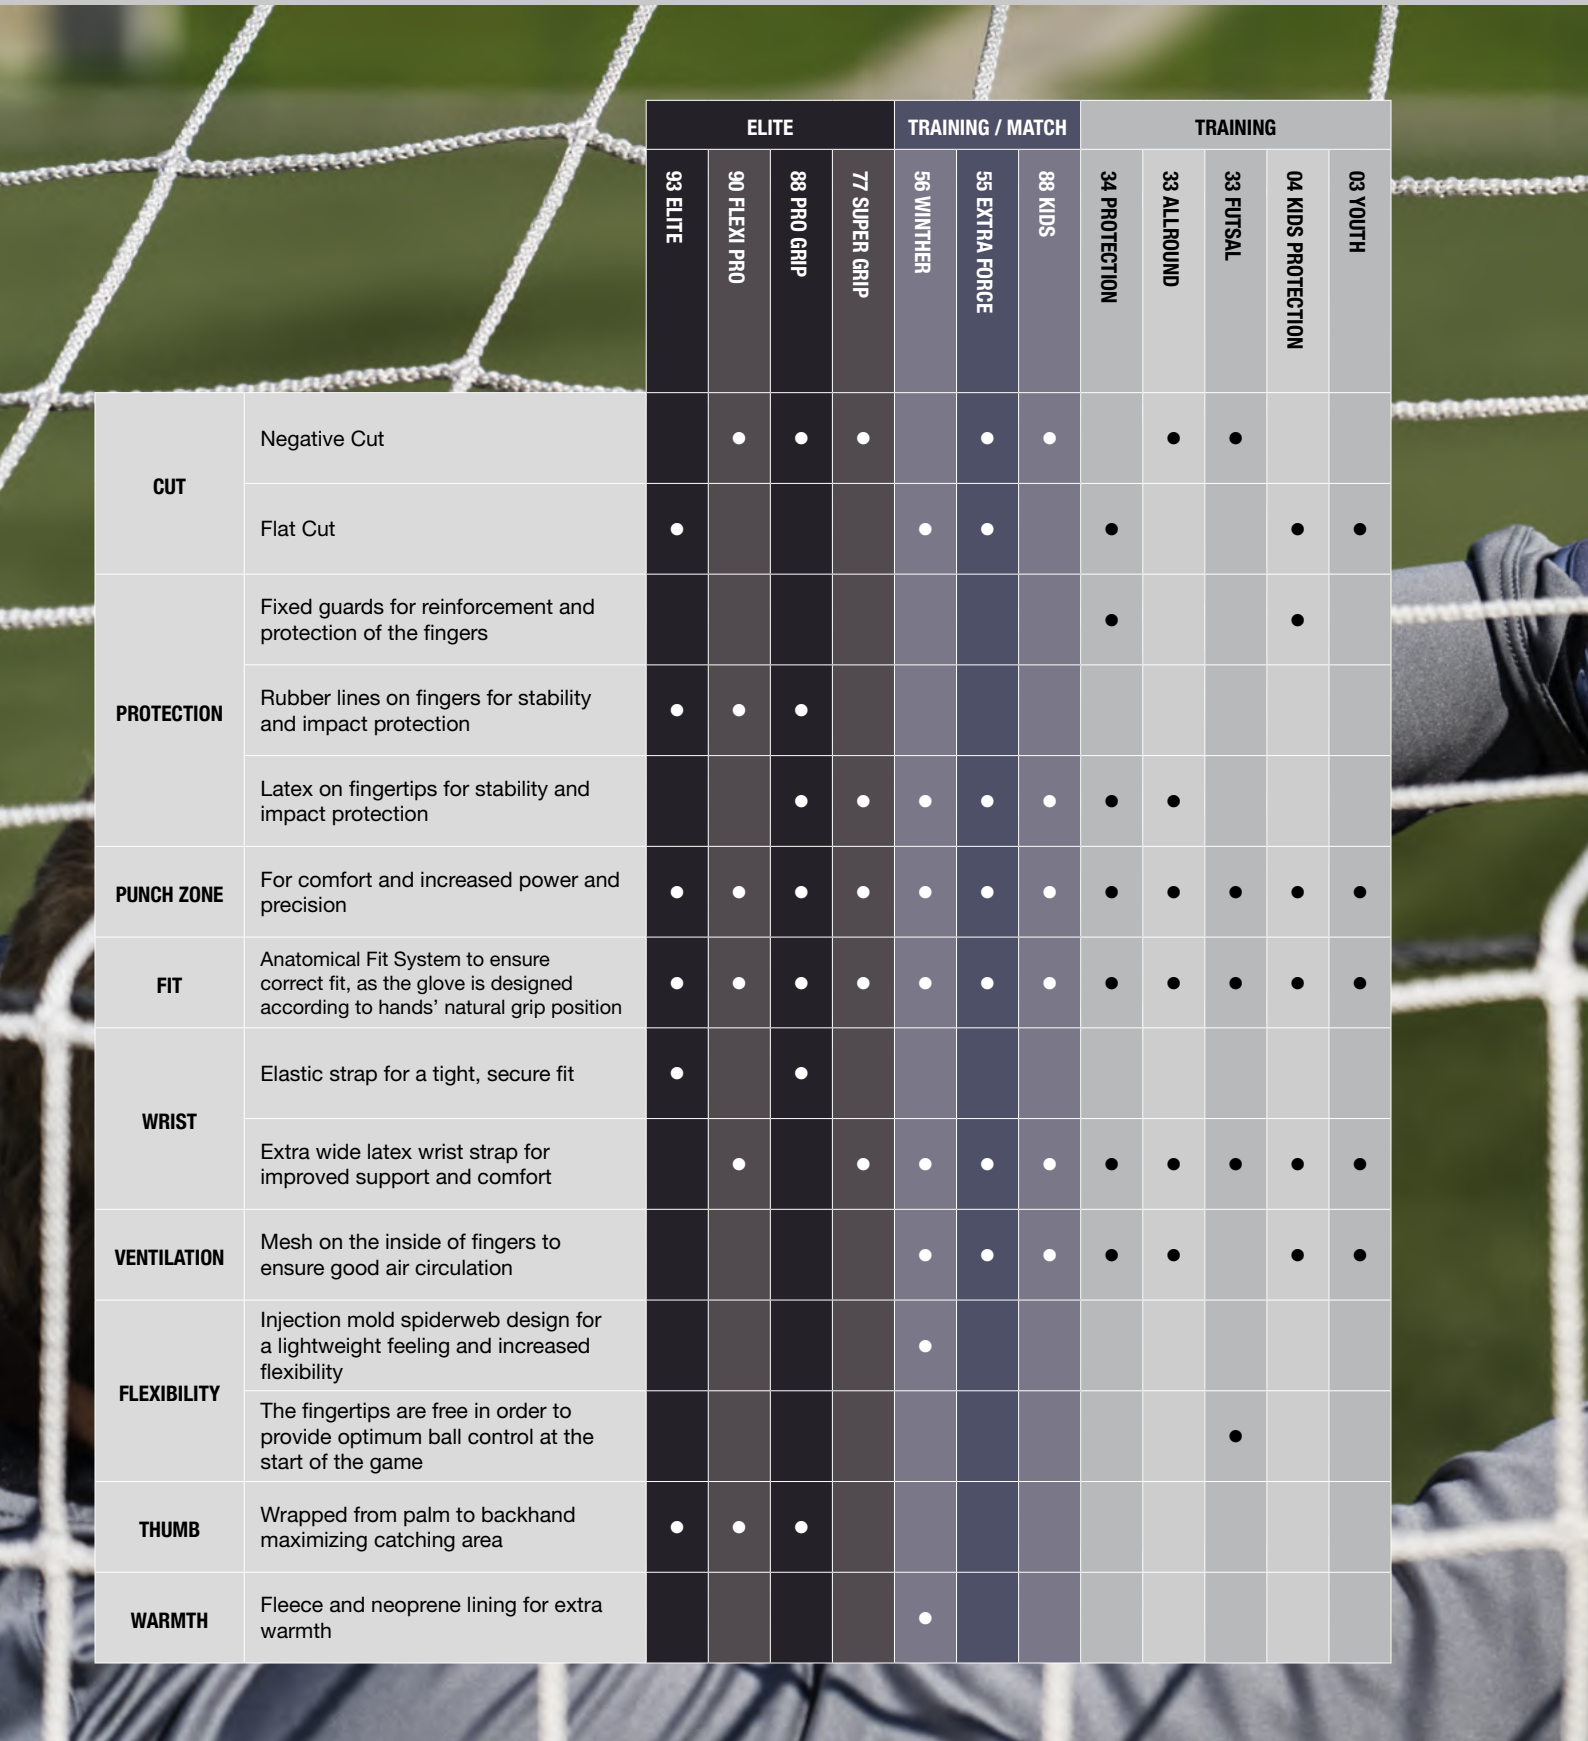

Fixed guards
For reinforcement and protection of the fingers

Latex on fingertips
For stability and impact protection

Glove size
Measure the length of the hand as shown and find suggested sizes in the chart below.

INSTRUCTION VIDEOS FOR TAPE BINDING

SELECT Profcare tape and bandages have been developed together with leading sports physio-therapists and are designed for athletes in all types of sports from football and handball to basketball and badminton, and many more.

SELECT Profcare tape can be used on all parts of the body and can be adapted to focus on everything from pain relief and stabilisation to injury prevention.

The tape instruction videos have been created together with leading physiotherapist from FC Nordsjælland, Jacob Peñalver.

PREVENT HEAL RECOVER

Bring your own massage therapist everywhere

Kristoffer Glavind Kjær, Body Therapist treating top athletes in cycling and handball and owner of ManuVision.

BALL-PUNKTUR & BALL-STIK

Ball-Stik and Ball-Punktur was developed more than 45 years ago by relaxation therapist Grete Wolfgang. Since then, the massage balls have become iconic and are used in gyms, schools and private homes.

The massage balls soften muscles, stimulate the blood circulation and create lymphatic circulation to reduce swelling.

They are produced in Denmark, and have been since 1972, with phthalate-free plastic.

Ball-Punktur is small and handy and can be brought everywhere.

Treating the Tour de France riders, Kristoffer Glavind Kjær has introduced the Ball-Punktur to help riders like three-time World Champion Peter Sagan recover from a day's race by reducing muscle tension, effectively strengthening muscles and increasing blood flow to help them perform at the highest level.

The massage ball also follows the Danish national handball team, as it was a part of the 2019 IHF Men's World Championship when they took first place, and Ball-Punktur was also a part of the Men's EHF Euro 2020.

SELECT

LEGENDARY SINCE 1947

SELECT Sport was founded in 1947 by Eigil Nielsen, goalkeeper for the Danish national football team, who devoted his life to create the perfect ball. The name of the company was given because of the exclusive leather that was specially selected for the ball production.

By producing many of the ball industry's groundbreaking creations such as the first laceless football, the first ball with 32 panels and balls made of synthetic leather, SELECT naturally became a trendsetter.

Back in 1951, SELECT signed a contract to supply balls for the Danish national football team, and in 1957 SELECT was appointed official supplier by the Danish Handball Federation. These partnerships have continued ever since and are some of the longest in the history of sport. A large number of agreements with both remarkable football and handball federations, clubs and players have since been made.

Today, SELECT is known as the ball specialist. Our footballs, futsal balls and handballs can be found in more than 50 countries, and we are the world's largest supplier of handballs. More than three million different SELECT balls are produced each year through a close cooperation with Anwar Khawaja Industries in Pakistan.

We have been developing balls for 75 years, and the passion for innovative craftsmanship still lives on in our daily work. Football, futsal and handball matches around the world are played with balls built on Eigil Nielsen's original principle of 32 panels, just as most balls produced worldwide are based on SELECT's inventions.

1947 Eigil Nielsen develops his first football and SELECT is born.

1951 SELECT presents the world's first laceless football.

1962 SELECT presents the world's first 32-panel football.

1972 SELECT presents the world's first 32-panel handball.

1974 SELECT presents the world's first hand-sewn PU football.

2012 SELECT presents the world's first intelligent football, the SELECT iBall.

2017 The world's first resin free handball, Maxi Grip

2018 SELECT presents the world's first intelligent handball, the SELECT iBall.

2021 SELECT presents the world's first Ultra Sonic football.
